

# High Energy Lithium Ion Battery Recycling Box

## Contents List

Shipping Box x1

Plastic Bags x4

Tape x2

Instructions x1

Scan for a list of accepted brands

Recycling kit should not be used for batteries that are damaged, defective or subject to a manufacturer recall.

## UNPACK & PREPARE

### Step 1: Unpack box

Remove all contents, including bags and tape. Do not remove the Flame Retardant Liner or any of the labels from the outside of the box.

### Step 2: Bag each battery

Place each battery into one of the provided bags – one battery per bag. If bags are too small, other clear bags that fully enclose the battery may be used.

### Step 3: Place into box

Place the bagged batteries in the box. Any extra space should be filled with a non-conductive material like bubble wrap or packing peanuts.

## IMPORTANT

- ! Only one battery per bag.
- ! Total weight of prepared package should not weigh more than 25.3 lbs (11.5 kg).
- ! Total watt-hour of all batteries combined cannot exceed 3,600 watt-hours.
- ! Individual batteries, 1,200 watt-hours and above must be confirmed to be under a 30% state of charge. Batteries 1,199 watt-hours or less do not require state of charge confirmation.

## SEAL & SHIP

### Step 4: Prepare to seal

Remove the tape backing from the pre-applied tape-strip on the underside of the front lid.

### Step 5: Close box

Close box by sliding the side flaps along inside of the box walls while inserting the front locking tabs into the vertical slots.

### Step 6: Seal box

Press down across the front of the mailer to secure it closed for shipping. Apply provided tape over front flap.

### Step 7: Drop for shipping

Drop off kit at UPS store or call for pickup.
